

Market Access and Digital Information Exchange

Remove the roadblocks on the path to more profits

The amount of manual administrative work agents must do to keep information from carriers up to date is off the charts. Almost enough to take you away from your core focus – being a trusted advisor to your clients. That's why Ivans connects you to your carrier and MGA partners to make working together easier and faster.

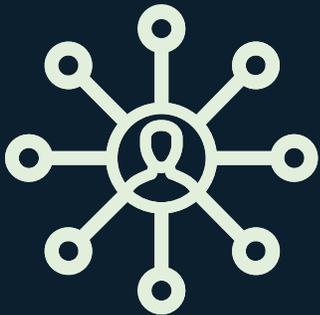

Available in technology you're already using, Ivans is the insurance industry's superhighway that digitally connects you to carriers so you can instantly exchange information on markets, policies, billing and more. The best part? Our solutions are free to agents just like you. It's time to ditch the traditional, cumbersome ways of working with carriers and MGAs so you have more time to give your clients a premier experience.

The Ivans Network:

The place you want to be

34,000 agencies and 450 (and growing) MGA and carrier partners connect to the Ivans network. By connecting to your MGA and carrier partners to digitize and automate the quoting, submission and information exchange processes, you reduce manual work and open up more opportunities to find the best coverage for your customers.

Appetite & Eligibility

Keeping up with the latest appetite for all your carriers and MGAs may seem impossible. When you have to visit dozens of websites, look at printed guides and/or PDFs that are likely outdated, or merely ask your colleagues, you don't get the full picture of what's available to your customers. That's a recipe for a missed opportunity.

Appetite & Eligibility enables your business to:

- Win business with the best coverage
- Save time by reducing manual work
- Keep track of carrier relationships and trends

Core Capabilities

Instant Appetite Search

Search commercial industries online to get an instant list of in-appetite carriers and MGAs for your new and renewal business.

Risk Filters

Filter by state, classification, risk-size and more to instantly see product highlights, underwriting criteria across your contracted markets and beyond.

Analytics Dashboards

Stay up to date on your team's search habits so you can identify preferred carriers and understand any trends.

Ivans removes all those roadblocks by integrating appetite search into your current system and workflows. All you have to do is search for your specific risk and you are presented with real-time appetite and eligibility details at the moment you need them.

Digital Access to Insured Data

We know how it goes. Your customers want their policy information and documents yesterday, but you have to wait for your carriers to manually send them. It doesn't have to be this way.

Ivans automates the exchange of information and documents from your carriers' policy administration systems directly to your agency management system as soon as it's available so you can give the nearly on-demand service your customers crave.

Digital access to insured data enables your business to:

- Stop manually communicating with carriers and managing paper
- Give customers timely service
- Cut down on administrative costs

Core Capabilities

Commercial Lines

Policies available for Commercial Lines download include Agriculture Package, Auto, Business Owners Policy (BOP), Crime, General Liability, Inland Marine, Property, Umbrella, and Workers' Compensation.

Personal Lines

Policies available for Personal Lines download include Auto, Dwelling Fire, Flood, Homeowners, Inland Marine, Mobile Home, Package, Umbrella and Watercraft.

eDocs & Messages

Receive policy-related information, including dec pages, cancellation notices, payment information and general underwriting, marketing messages and Surety documents.

Claims

Securely transmit claims adjustments, settlement information and incoming claims. Automating claims communications provides you with the critical claims details you need to service your clients quickly and effectively in their time of need.

Direct Bill Commission Statement (DBCS)

Automate the commission process to ensure commissions are properly reconciled each month and improve the data accuracy. Reduce time manually processing commission statements from days to hours.

About Ivans

Ivans is where insurance carriers, agents, and MGAs come together to grow their businesses. Every day, our 34,000 agents and 450 carrier partners plug into technology that empowers them to better determine appetite and eligibility, swiftly produce quotes, get accurate claims and commission updates, automatically communicate policy data, and connect to one another to drive new business. With easier ways to get the day's work done, insurance professionals can open the door to more revenue without letting complexity in behind it.
